PROFESSIONAL EXPERIENCE

Sheefra, *Software Engineering Intern* *May 2024 - present*
Beirut, Lebanon

- Developed and customized WordPress websites and Shopify stores, integrating necessary plugins and optimizing for performance.
- Led the development of an eCommerce website for a perfume client from the initial design to the final deployment.
- Ensured consistency with the client's brand identity, significantly enhancing the overall aesthetic appeal of websites.
- Collaborated with senior developers to troubleshoot and resolve frontend issues, ensuring optimal performance and functionality.

Webistic.in, *Software Engineering Intern* *May 2024 - present*
Delhi, India (Remote)

- Handled and worked with two clients, managing diverse requirements and delivering customized solutions.
- Developed and maintained interactive frontend clones for various websites based on client specifications.
- Translated client needs into functional and visually appealing web designs, ensuring high user engagement.
- Ensured all cloned websites are fully responsive, providing optimal user experience across all devices and screens.
- Managed multiple projects simultaneously, prioritizing tasks and meeting tight deadlines to deliver high-quality results.

YAFA Cloud Services LLC, *Software Engineering Intern* *Apr 2024 - present*
Dubai, UAE (Remote)

- Utilized React.js and TypeScript to develop and maintain interactive user interfaces for the company's website.
- Collaborated with design and backend teams to ensure seamless integration of frontend components.
- Implemented responsive design principles to enhance user experience across various devices and screen sizes.
- Conducted code reviews and participated in Agile development processes to deliver high-quality software solutions.
- Worked exclusively on the company's website, ensuring all components met the highest standards of functionality.

PROJECTS

Coffee Grounds, Coffee Shop Landing Page
Showcased the coffee shop's about section, menu, and contact information for enhanced engagement using React.

BunFire, Restaurant Landing Page
Utilized HTML5, CSS3, JavaScript, and Google Maps API to create a responsive landing page, improving online visibility.

Saturdays, Restaurant Landing Page
Applied HTML, CSS, and JavaScript, showcasing the menu and contact information to enhance customer engagement.

Tabs Tracker, Chrome Extension
Developed a lightweight Chrome extension using JavaScript and local storage, enabling users to save and organize their favorite tabs for quick access.

Bookworms, Book Club Landing Page
Designed a clean and responsive landing page for a book club using HTML and CSS, featuring essential elements.

Pic Quest, Pinterest Clone
Created a responsive Pinterest clone, integrating the Unsplash API and showcasing expertise in HTML, CSS, and JavaScript.

Personal Portfolio
Built a sleek and responsive frontend portfolio using HTML, CSS, and JavaScript, showcasing skills in user-centric design and clean coding.
