EDUCATION

Modern University for Business and Science (MUBS)   *Oct 2022 - Jun 2025*
Bachelor of Science in Computer Science, GPA: 3.74 /4.0

Certification from Harvard University: CS50X   *Dec 2023*

PROFESSIONAL EXPERIENCE

The Pixel Company, *Junior Frontend Developer*   *Aug 2024 - present*
Cairo, Egypt (Remote)
- Meet with clients to understand their requirements and provide technical solutions for their frontend needs.
- Collaborate with UI/UX designers to translate design concepts into functional and visually appealing user interfaces.
- Develop responsive web applications using React and, occasionally, vanilla JavaScript for enhanced interactivity.
- Integrate frontend components with Python, PHP, and Node.js backends to ensure seamless data flow and application functionality.

InfinityLabs, *Laravel Developer Intern*   *July 2024 - present*
Beirut, Lebanon (Hybrid)
- Collaborated with senior developers to build a comprehensive school management system for all private schools in Lebanon.
- Focused on backend development using Laravel, with seamless integration of an AI system to assist students.
- Implemented features like a chatbot, AI-powered quiz generator, AI grading, and performance review.
- Integrated the Laravel backend with a Flutter-based frontend for a smooth, user-friendly experience.

Webistic.in, *React Developer Intern*   *May 2024 – July 2024*
Delhi, India (Remote)
- Handled and worked with two clients, managing diverse requirements and delivering customized solutions.
- Developed and maintained interactive frontend clones for various websites based on client specifications.
- Translated client needs into functional and visually appealing web designs, ensuring high user engagement.
- Ensured all cloned websites are fully responsive, providing optimal user experience across all devices and screens.

YAFA Cloud Services LLC, *React Developer Intern*   *Apr 2024 – Jun 2024*
Dubai, UAE (Remote)
- Utilized React.js and TypeScript to develop and maintain interactive user interfaces for the company's website.
- Collaborated with design and backend teams to ensure seamless integration of frontend components.
- Implemented responsive design principles to enhance user experience across various devices and screen sizes.
- Conducted code reviews and participated in Agile development processes to deliver high-quality software solutions.
- Worked exclusively on the company's website, ensuring all components met the highest standards of functionality.

PROJECTS

Locavo, Car Rental Website
Developing a car rental website with admin panel using React, PHP, MySQL

Hizzek-Mizzek, eCommerce Website
Developing an eCommerce Website for HizzekMizzek using WordPress, focusing on UI/UX, categorization and design.

Saturdays, Restaurant Landing Page
